WORK EXPERIENCE

TRACTION AG
Software Engineer *May 2020 - Present*
- Was key in developing the company's accounting product in order to release an MVP as soon as possible
- Implemented UI features according to acceptance criteria & clarified feature requirements with product team as necessary
- Reviewed pull requests for other team members
- Assisted new team members with questions as they onboarded and started working on our codebase
- Actively participated in Scrum processes

CORSICA TECHNOLOGIES
Front End Developer *January 2020 - March 2020*
- Implemented UI features for the company's primary software application built with React
- Implemented UI features for another React project for one of the company's clients

UNITED ART & EDUCATION
Web Developer *June 2019 - January 2020*
- Maintained the company's existing intranet and Microsoft SQL Server database
- Released a new feature for enrolling customers in a new promotional program
- Updated the company's e-commerce website to meet marketing objectives

RUSH LAW OFFICE *March 2017 - June 2019*
PARALEGAL
- Handled client communication, drafted and filed court documents, & conducted legal research

SOFTWARE PROJECTS

- Recipe Stash **https://recipe-stash-1.herokuapp.com/**

Recipe Stash is a web app to store, filter, & categorize recipes, including a feature to upload images for recipes. Built with React, Node, AWS S3, and PostreSQL. For fun (and not because this is a good idea in general) I developed my own user session-based user authentication service.

- Happy Balance **https://happy-balance.herokuapp.com/**

Happy Balance is a straightforward web app for monitoring body weight; it includes a goal feature by which users can enter weight goals. I used Chart.js to visualize user progress. Built with React & Firebase (for both back end data storage and user authentication).

SKILLS

Programming Languages	JavaScript, TypeScript, CSS/SASS, HTML
Frameworks	Angular, React, Node, Express
Technical Tools	Git, AWS, Firebase, Heroku, Jira, Bitbucket

EDUCATION

Ivy Tech Community College	**Paralegal Studies (AAS)**
August 2015 - May 2017	4.0 GPA
Treehouse	**Front End Development Track**
September 2018 - February 2019
